**Parent support and encouragement are very important to a child's success. Because of this, we offer our scholarships to children whose parents are very excited about this opportunity & who want their students to get an excellent education & to go to college.**

1. If your child receives this scholarship, she will attend one of the best private schools in the state, from 6<sup>th</sup> through 12<sup>th</sup> grade. This is a terrific opportunity! The school's job is to teach her as much as possible and prepare her for college. Her job is to work very hard and learn as much as possible! She will usually have two or three hours of homework at night. How do you feel about this?

2. Because your child's "job" is to work hard in school, having a

quiet study place with no distractions is important. Many of our parents make rules about studying, such as making it the first thing their child does when they get home from school, having no television or phone calls while studying, etc. How do you feel about this? \_\_\_\_\_

3. Excellent attendance in school is very important. Would you schedule your family trips, vacations, etc. at times when your child's school is closed to avoid missing school? \_\_\_\_\_

Our summer program begins the middle of June and lasts for six weeks, through the end of July. Again, it is very important that each student attends every day of the summer program (unless, of course, he or she is sick.) Our families schedule their trips & vacations before or after the summer program. Do you anticipate any problems with this? Will you commit to your child attending the summer program?
